DISCLAIMER:

Our automatic delivery system is a computerized system that monitors the daily temperature, size of your oil tank, previous deliveries, etc. to calculate your next delivery date. Every home is unique and as such its oil consumption varies. There are many factors, some permanent and others temporary that may affect the rate of your oil consumption. A few factors that may affect usage are quality of insulation, equipment efficiency, number of residents, time away from home, additional guests visiting, etc. Although, we closely monitor and adjust our delivery schedule to suit your needs, we may not be aware of some of the above referenced factors. Ultimately, the responsibility is yours to monitor your tank level. We are not responsible for any damage due to running out of oil. If you feel you will need a delivery sooner than usual due to these factors, please contact the office to arrange for such. I understand and agree to pay interest at the rate of 1.5% per month (18% annually) on accounts over 30 days, and to pay all costs of collection, including but not limited to court costs, marshal fees, and a reasonable attorney's fee in the event that my account is delinquent.
